The Airship Isn't Half as Important an Invention as the

GAS RANGE

It isn't absolutely necessary that men travel through the air. There are plenty of other ways of getting from one place to another. But it is necessary that we have good things to eat.

The hot El Paso summer is not far off. Then a coal fire will be unbearable. Get a gas range now and be ready for the first summer day. Aside from the question of comfort it's cheaper to cook with gas.
